Spring 2 Report HoneyDo Project Team Report 2 May 18,2017

Work Completed:

- As a user, I want to be able to drag Tasks into a day on my calendar
- As a user, I want to see my progress so I can keep track of how much I've accomplished.
- As a user, I want to assign times to my Todo's, so I can know exactly when to do them.
- As a user, I want my Todo Items to be saved so that they're always there when I come back to them.

Not Completed:

- As a user, I want the list to organize by tasks with highest priority at the top
- As a user, I want color coding so I can glance at the calendar briefly and know what to do.
- As a user, I want to have a search bar so I can search for the task I need to do.
